This guide is a brief overview of Greenville County’s GT/GT Index Book Viewer.

Begin by selecting a document type and year range. For our example, we’ll be looking for a deed recorded between 1975 and 1989.
Next, select the Grantor or Grantee set out that pertains to the name you are searching for. For our example, we’ll be searching for the Grantor ‘Adair’.
You may now view the image to find the index book page ‘Adair’ is listed on. In our example it is page 56.

Type your desired page number in the text box and click the ‘Look Up Page’ button.
You are now taken to page 56 of the index book and can browse to alternative pages by clicking the page links on the left. Once you find the name you are looking for, make note of the book and page number and click on the ‘Microfilm Viewer’ to access the document image.
For our example, ‘Adair’ was in Deed Book 1037, page 871.

Select your book type and book number from the dropdown and then enter the desired page number in the frame box and press enter.
You can adjust the number of open frames by selecting different options from the Image Layout dropdown. Each image is available for save and printing by hovering your mouse over the image. To see an image in full screen, click on the magnifying glass.
